SKILLS

- Frontend
- Mobile Development
- UI/UX & Prototyping
- Backend Basics
- Soft Skills

LANGUAGE

- English
- Urdu

HOBBIES

- Reading
- Sports

Summary

Software Engineering student with expertise in React.js, React Native, and Android Studio. Passionate about creating modern, user-friendly, and responsive applications. Strong understanding of UI/UX design, prototyping, and requirement gathering. Currently working on personal projects and looking for opportunities to apply and expand my skills.

Experience

- Developed React.js-based web applications with responsive UI/UX.
- Built mobile apps using React Native and integrated Firebase for backend services.
- Designed interactive prototypes using **Figma** and gathered requirements from clients.

Projects:

1. Elevate Social – Social Media Automation Tool

Technologies: React.js, Node.js, Flask (Python), MongoDB, Tailwind CSS

- Developed a web app that generates business-related image & text posts and directly publishes them to social media platforms.

2. Ghamkol Sharif App (iOS & Android)

Technologies: React Native, Firebase, YouTube Embed API, Stripe, PayPal, Tailwind CSS

- Cross-platform mobile app with Home, Gallery, Video, and Donate sections.
- Integrated **YouTube embedded videos**, dynamic gallery display, and admin-managed content.

Education

- **FSc Pre-Engineering** – Kips College Gujranwala (2018-2020)
- **Bachelor of Software Engineering** – GIFT University, Gujranwala (2021-continue)

Programming Language

- React.js
- Java
- React Native
- Node.js (Basic)
- Flask (Basic)

Certificates

- **Web Development** – Alison
- **UI/UX Design Principles** – Coursera
- **Introduction to Artificial Intelligence (AI)** – IBM
